

The Only Way

written by: Charlie Lustman

Just don't know what I'm gonna do
they tell me things I can't believe it's true
That if I want a better chance to live
I've got to follow the advice they give

They say the situation can be dire
this may have spread just like a forest fire
So twenty rounds of chemotherapy
that is the answer that they have for me

Is it the only way the only way
to stop the cells inside that threaten me
so I can be there for my family

I heard about a place in Mexico
where they can alter you from head to toe
People been going there since the seventies
but nothing comes with any guarantees

Is it the only way the only way
to stop that cell inside that threatens me
so I can be next to my family

Why not try extracts from the Amazon
and shots of wheat grass till the threat is gone
And search for healers down in India
find the antidote in Africa

The doctor says I've got no time to lose
the day has come for me and I must choose
So twenty rounds of chemotherapy
if that's what the scientists have found to be

The only way the only way
to win the battle that's inside of me
so I must do this for my family
