Dear Charlie,

On behalf of the committee for the *American Cancer Society Western Region Cancer Survivors Conference*, I would like to thank you for your dynamic and inspiring presentation delivered to the 350 survivors and caregivers in attendance at our 25th annual conference.

Your "Musical Hope Campaign" is truly unique. The journey you have taken that now allows you to share your talents with other survivors is a tribute to everyone going through their own cancer journey. The combination of engaging songs and heartfelt messages allows you to really connect with the audience. It's the perfect combination!

I also wanted to share some highlights from the evaluations that we received from the attendees:

"Charlie was exceptional.... awesome... hilarious... fabulous!"

"The 1st and best concert I've ever been to - really enjoyed - am so glad I came."

"Thanks to the lighthearted approach by C. Lustman. I just loved him!"

Thank you so much for sharing your talents with us here in Western PA. It was such a pleasure!

All the best to you,

A handwritten signature in black ink that reads "Kacie Jankoski".
