

To whom it may concern,

We have had the pleasure of experiencing a performance of "Made Me Nuclear" by Charlie Lustman. As a cancer survivor myself, I was totally unprepared for the powerful impact his message of hope would bring to me and to my employees. We left inspired, empowered, and far better for having the opportunity to hear Charlie's songs and, equally important, the thought-provoking words and personal messages he shared from his heart. Several of our staff also wanted to convey their feelings, which are included below.

I recently had the privilege to meet and hear Charlie Lustman perform at our company. Charlie's performance was very powerful and reminded us that what you do with your time here on this planet truly matters. ~ Judy

As someone who lost her father to cancer as a child, I really appreciated the message of hope that Charlie had to share and the enthusiasm for life he has. It is a message that needs to be spread to the world! ~ Cindy

Charlie's commitment to empowering people in what could be the darkest time of their life is nothing short of heroic. As he inspires those who are dealing with illness, he reminds those who are healthy to be thankful for that health and to make every day, every action, every word count. ~ Whitney

If you are considering working with Charlie Lustman, you will not be disappointed. In fact, he always delivers more than anyone could imagine. The world is a better place because of this man and his story.

Sincerely,

Richard Cohn
