

Come Inside

written by: Charlie Lustman

Come inside and sit for a while
and leave your worries behind you
Come and stay as long as you like
so you can journey to find you

Close your eyes and try to stop yourself from thinking
See the sun arise and light the world you live in

Come inside and sit for a while
and let the atmosphere feel you
Come inside and pray if you like
and the highest power will heal you

Free yourself from chains and set your child in motion
Let your river flow down into your ocean

And you will feel better
You will get better
You will do better
So much better

Now the hands of time have given you the freedom
peace and love live inside your kingdom

Come inside and sit for a while
behold the beauty around you
Come inside so we can get high
so nice that you lost and found you

And you will feel better
you can feel better
yes you know better
you're getting better so much better
yes you'll do better
help you get better
to help you get better
feel yourself better
yes you'll do better
getting much better
oh better much better
yes you're feeling so much better
