

Do What You Love

written by: Charlie Lustman

Do what you love
Love what you do
Love all you can
I'm waiting for you to...
Do what you love
There's no other way
So don't be afraid
Just take everyday
And do what you love

Life is such a big surprise
You never know what lies right up ahead
So make your plans but don't forget to...

Do what you love
Love what you do
Love all you can
I'm waiting for you to...
Do what you love
There's no other way
So don't be afraid
Just take everyday
And do what you love

Got so many bills to pay
and debts to weigh me down
for the rest of my life
So why not pay them doing the things you love

And if you don't know what you love to do
Well then just picture you as a kid
Then you'll know so...

Don't wait for the lights to change
or something strange to happen to us all
This is the time to take control and...

Do what you love
Love what you do
Love all you can
It's all up to you to...
Do what you love
There's no other way

and don't be afraid
Just take
And do what you love
