

Simple Song

written by: Charlie Lustman

How do I thank you for all that you've given to me
so grateful to be
And how do I show you my gratitude towards you
for standing by me in my time of need

Just a simple song is all I know
and what I have to play for you today
and I hope that's ok

I need to thank you
the doctors and nurses who helped me get through this
from down on my knees and back on my feet

And all of my family and friends who were there for me
yes it was crazy the scene was I know
but you held me close

And these simple songs are all I know
and what I have to sing for you today
and I hope it's ok
yes I hope that's ok

And you know I will be there when you need me too
All that we have in the end is each other my friend

I need to tell you how deeply I love you
for you live the words that you said
on the day that we wed

And these simple songs are all I know
and what I have to give the world today
and I hope it's ok
yes I hope it's ok
Yes I hope that's okay
